- Emotional control and ability to work under high pressure
- Ability to self-organize tasks/plan
- Ability to adapt new changes and self-motivated

EMPLOYMENT HISTORY

PERIOD	COMPANY
05/2013 - Present	Freelancer

PROJECT

Software Engineer Project Detail:

- **PhoWall: 05/2023 - 07/2023**
 - **Project features:**
 - Register and login for customer and admin
 - View posts, articles, brokers, topics, videos..
 - Manage posts, articles, brokers, topics, videos...
 - **Project size:** 3 resources
 - **Personal Responsibilities/Contribution:** NuxtJS, VueJs Leader
 - Read specification document
 - Coding and analyzing business team requirements
 - Coding review
 - Provide technical solutions for the projects
 - Setup and deploy to the server
 - **Language:** NestJS, NuxtJS, VueJs, Redis, MySQL
- **SEN APP: 11/2022 - 05/2023**
 - **Project features:**
 - Register and verify your account easily
 - Create jobs and assign to the right people, right jobs, manage progress in just 1 screen
 - Convenient job search by keyword, industry and distance
 - Communicate personal, group and work through built-in chat
 - **Project size:** 3 resources
 - **Personal Responsibilities/Contribution:** NodeJS, ReactJs Leader
 - Read specification document
 - Coding and analyzing business team requirements
 - Coding review
 - Provide technical solutions for the projects
 - Setup and deploy to the server
 - **Language:** NestJS, ReactJS, Redis, MySQL
- **Booking Hotel and Flight - heyotrip.com: 04/2021 - 11/2022**
 - **Project features:**
 - Search Hotel and API sync with thity partner - TVP, Travelport
 - Search Flight and API with thity partner - Travelport, VietJet, Vietnam Airline
 - RESTful API for mobile
 - Payment via Stripe, Coin

- Manage customer, order and transaction...
 - **Project size:** 5 resources
 - **Personal Responsibilities/Contribution:** NodeJS Leader, NextJS Developer
 - Read specification document
 - Coding and analyzing business team requirements
 - Coding review
 - Provide technical solutions for the projects
 - Setup and deploy to the server
 - **Language:** NestJS, NextJS, Redis, MySQL, MongoDB

- **WashUp - ruaxetannha.com: 02/2021 - 03/2021**
 - **Project features:**
 - Schedule car wash and air conditioner cleaning at home
 - Payment via Momo
 - View order history
 - **Project size:** 1 resources
 - **Personal Responsibilities/Contribution:** NodeJS Leader, NextJS Developer
 - Read specification document
 - Coding and analyzing business team requirements
 - Coding review
 - Provide technical solutions for the projects
 - Setup and deploy to the server
 - **Language:** NodeJS, NextJS, Redis, MySQL

- **Than Den Express: 08/2020 - 12/2020**
 - **Project features:**
 - Order Management
 - Shipping Management
 - Financial management
 - **Project size:** 2 resources
 - **Personal Responsibilities/Contribution:** PHP, VueJS Developer
 - Read specification document
 - Coding and analyzing business team requirements
 - Coding review
 - Provide technical solutions for the projects
 - Setup and deploy to the server
 - **Language:** PHP, VueJS, MySQL

- **Register for the test online: 06/2020 - 08/2020**
 - **Project features:**
 - Users register for an online test schedule on the web
 - View test results
 - **Project size:** 2 resources
 - **Personal Responsibilities/Contribution:** PHP, ReactJS Developer
 - Read specification document
 - Coding and analyzing business team requirements
 - Coding review
 - Provide technical solutions for the projects
 - Setup and deploy to the server
 - **Language:** PHP, ReactJS, MySQL

- **Vehicle tracking - bislog.com: 03/2019 - 06/2020**
 - **Project features:**
 - Vehicle monitoring: Display the vehicle on the map in real time
 - View vehicle journey history
 - View vehicle-related reports such as speed, fuel, on/ off engine, air conditioning
 - **Project size:** 5 resources
 - **Personal Responsibilities/Contribution:** NestJS Leader, ReactJS Developer
 - Read specification document
 - Coding and analyzing business team requirements
 - Coding review
 - Provide technical solutions for the projects
 - Setup and deploy to the server
 - **Language:** NestJS, ReactJS, Redis, MySQL, MongoDB

- **Create and edit photo frames - decor22.vn: 01/2019 - 03/2019**
 - **Project features:**
 - Create and edit photo frames from user uploads
 - **Project size:** 1 resources
 - **Personal Responsibilities/Contribution:** NodeJS, ReactJS Developer
 - Read specification document
 - Coding and analyzing business team requirements
 - Coding review
 - Provide technical solutions for the projects
 - Setup and deploy to the server
 - **Language:** NodeJS, VueJS, MySql

- **CEO Brain: 02/2017 - 03/2019**
 - **Project features:**
 - Develop a mechanism for setting target, salary - bonus fund and operating costs
 - Planning organizational structure & current business indicators
 - Establish new organizational structure & business plan
 - The system will indicate the feasibility of the new business plan
 - **Project size:** 1 resources
 - **Personal Responsibilities/Contribution:** NodeJS, ReactJS Developer
 - Read specification document
 - Coding and analyzing business team requirements
 - Coding review
 - Provide technical solutions for the projects
 - Setup and deploy to the server
 - **Language:** NodeJS, MySql, Redis, ReactJS

- **Casual Game: 12/2022 - 02/2023**
 - **Project features:**
 - Develop game using Unity
 - Publisher game on google play store
 - **Project size:** 1 resources
 - **Link game :** <https://play.google.com/store/apps/details?id=com.kairoz.dodgeman>

- **Metaverse 3D Realtime Game: 3/2022 – 12/2022**
 - **Project features:**
 - The game simulate one a city, where players can interact, communicate with each other by chat or video call. Players will own their own characters in the game and can be customized Planning organizational structure & current business indicators
 - Develop client, server game using Unity3D
 - Developed for client game Bobiland - a metaverse game 3D

- Participate develop server side with other member
- **Link game :** <https://play.google.com/store/apps/details?id=com.kairoz.dodgemia>

- **And many other outsourcing projects with the team (15 people)**

Key Achievements:

- Gained good knowledge in Research and Development Technical
- Gained good knowledge and experiences in frontend development working with ReactJS, VueJS
- Improved in self-learning, technical research, communication, teamwork, management skills

EDUCATION

Posts & Telecommunications Institute of Technology
Bachelor of Information Technology

LANGUAGES

Vietnamese, English
